Changes! Changes everywhere!  
A different K.M.H.S.!  
Murals, wildly colorful, greeting  
each student as if to say  
"Come in, make education your bag!"

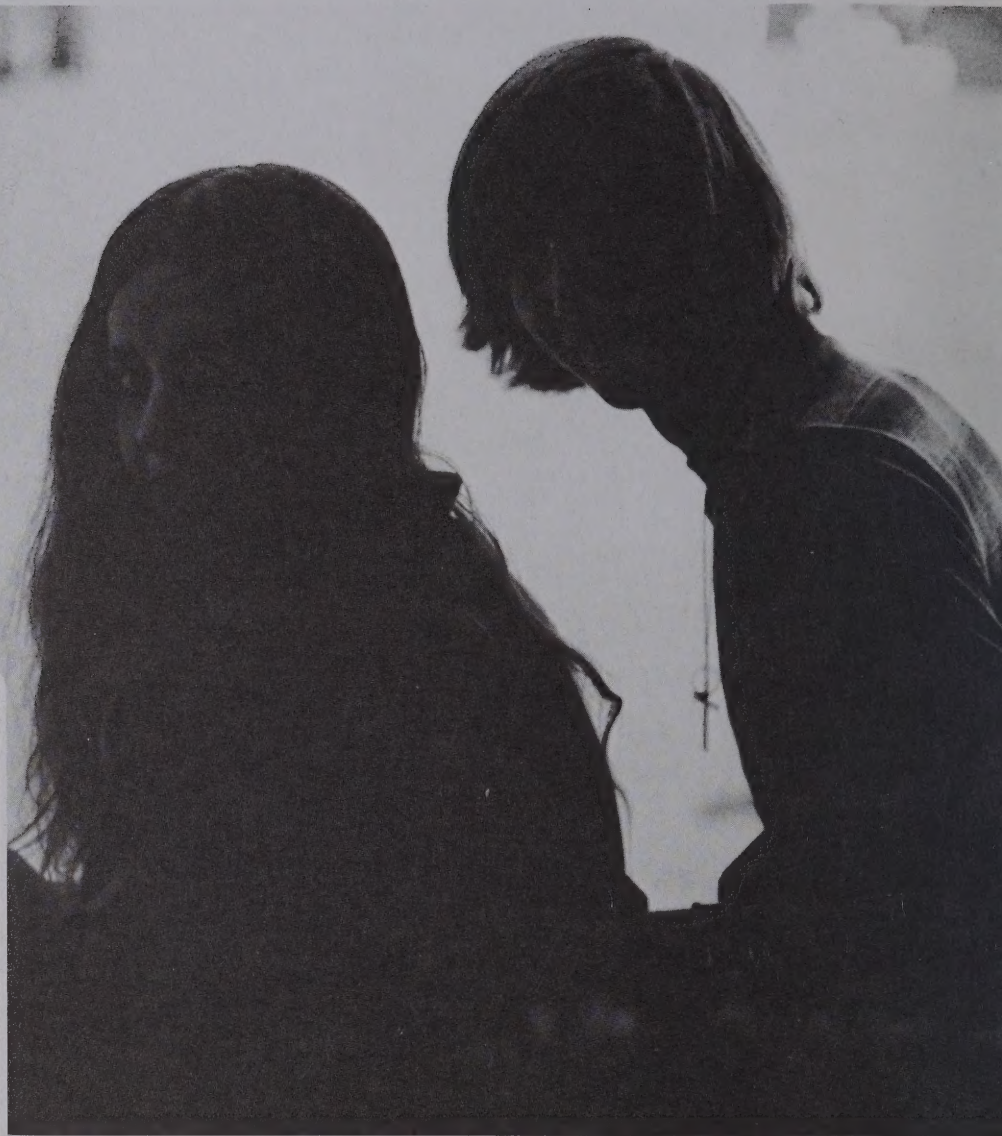

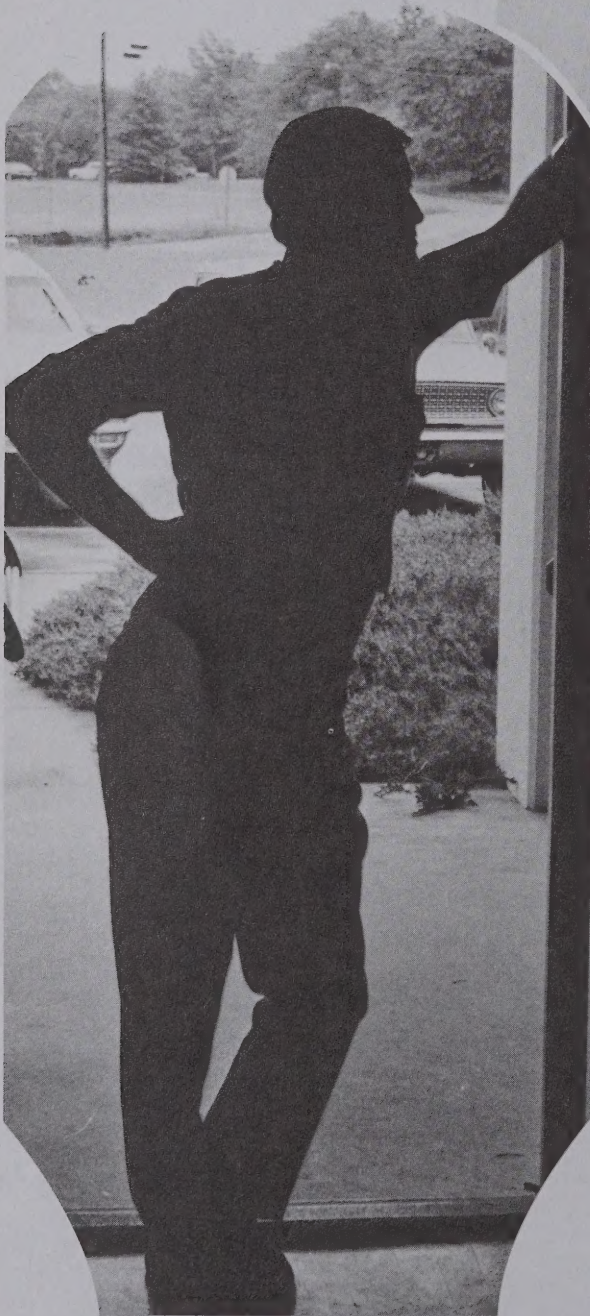

New Curriculum! No more Columbus! No more Pilgrims!  
Classes in learning how it  
all happened . . . why it all happened . . .  
getting it all together.

Beauty! Beauty inside, Beauty outside!  
Being free to enjoy the lovely court  
which seems like an oasis in the desert  
in the middle of the school day!

Shadows . . .

Deep in the shadows of the mine lives a  
spirit longing to be free . . .

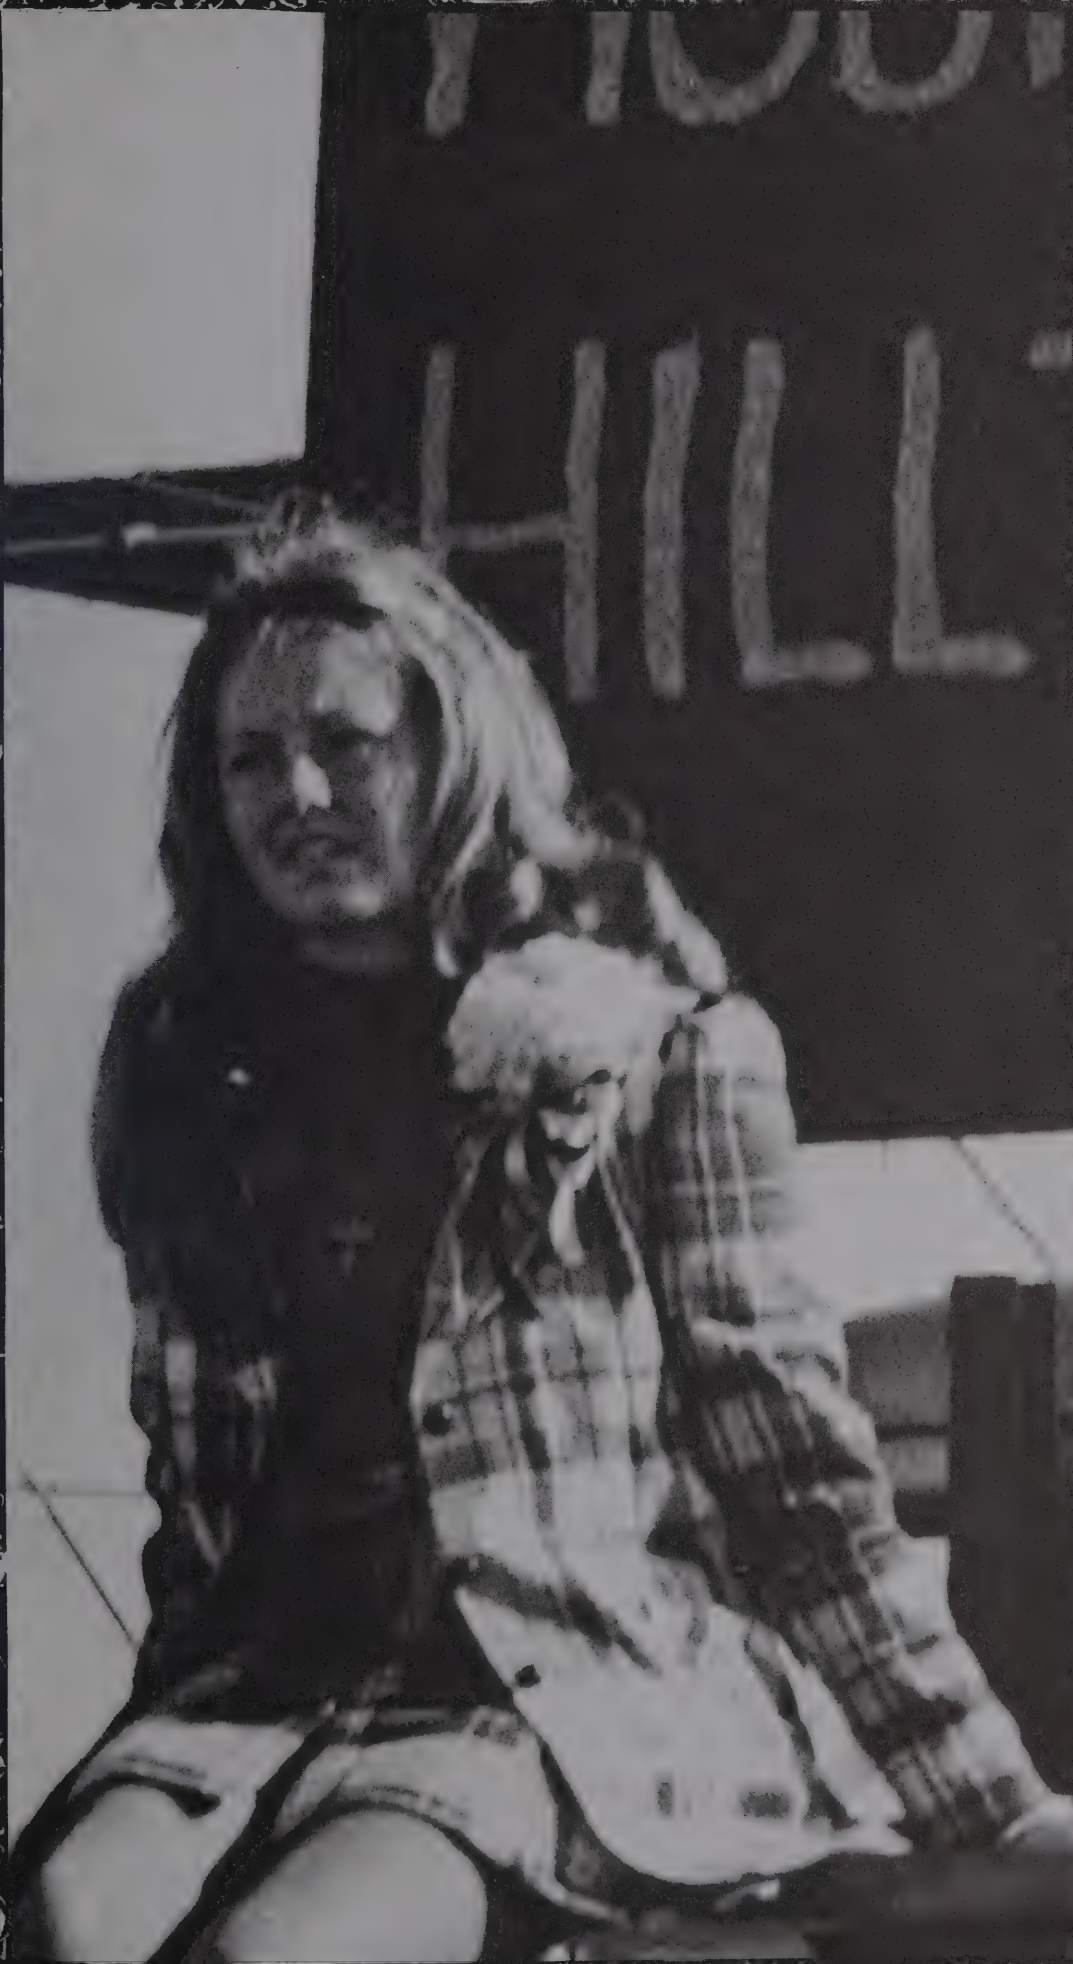

A thought chained by the fear of being  
different. Break out of the shadows.

Think . . .

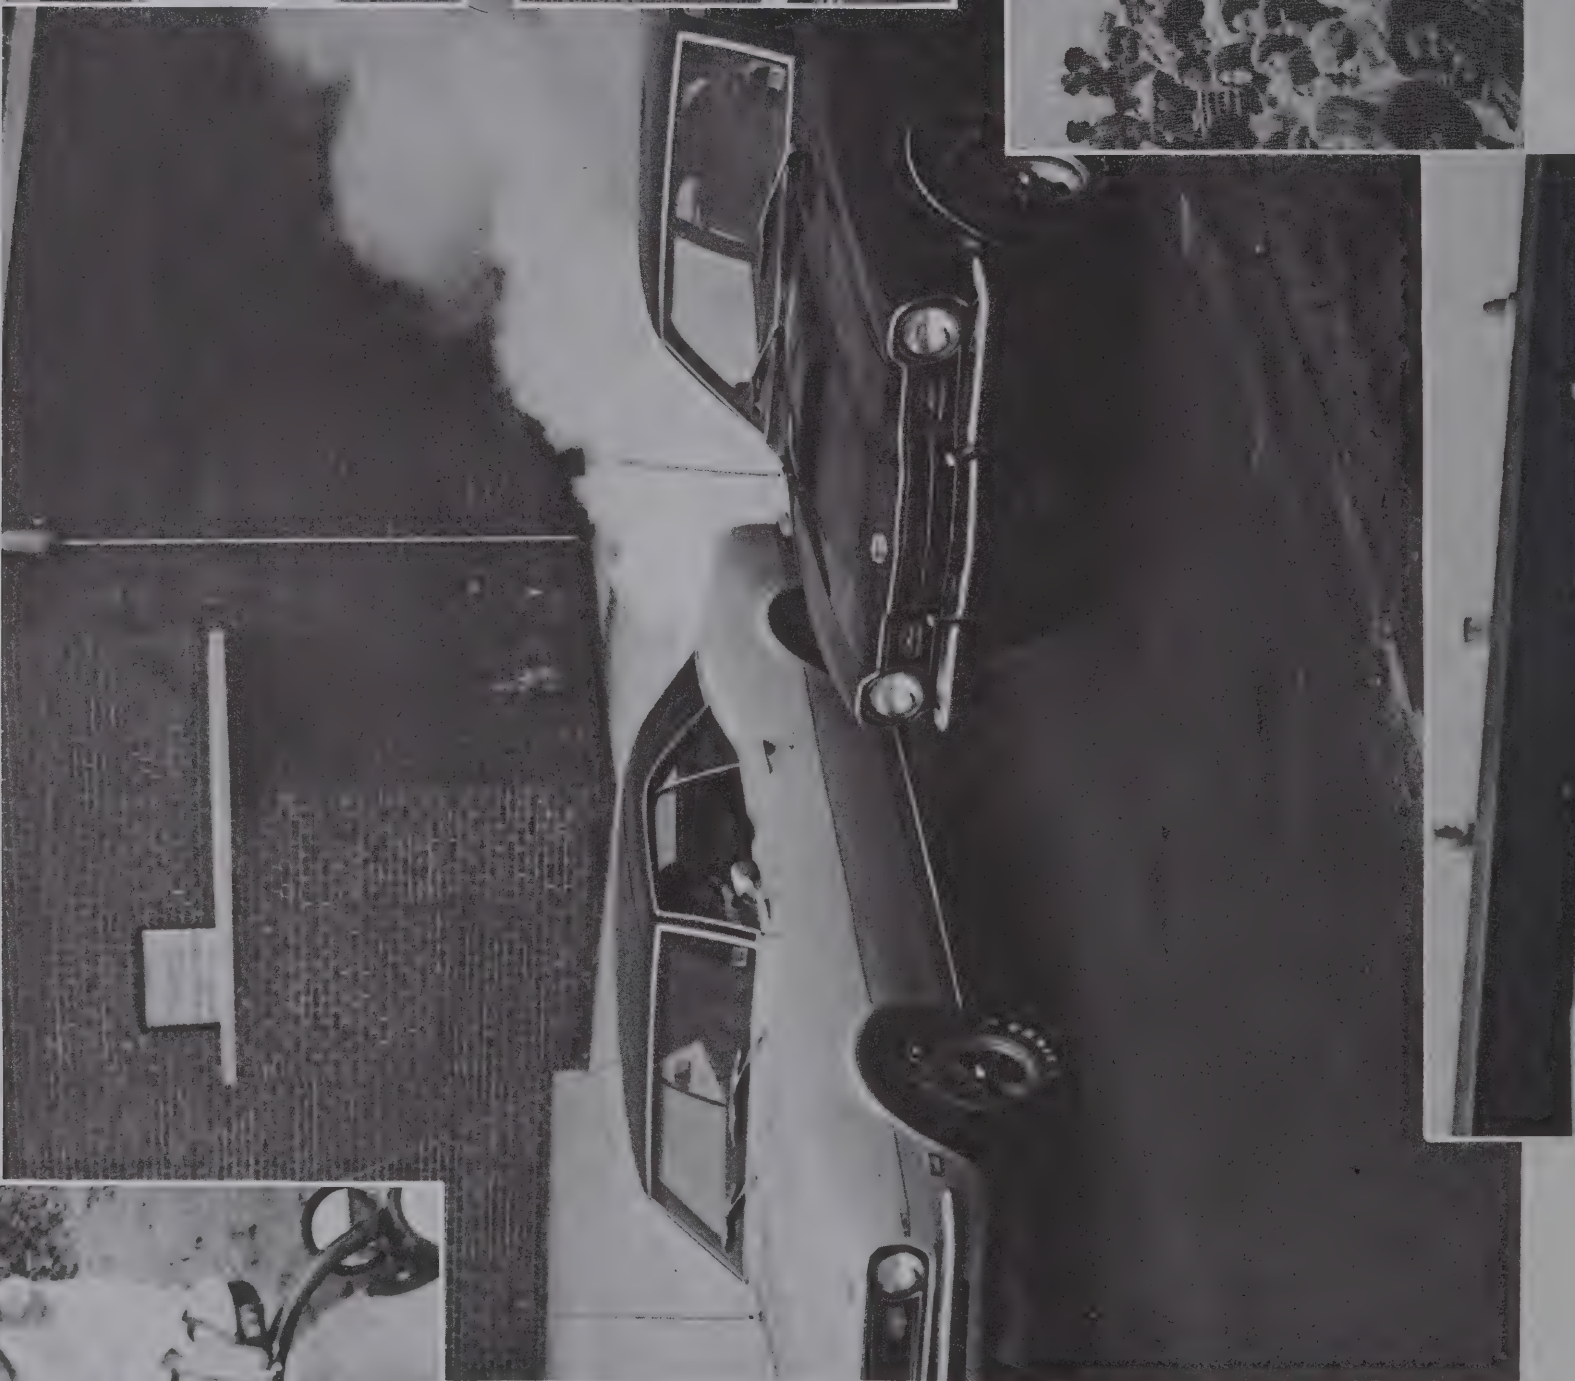

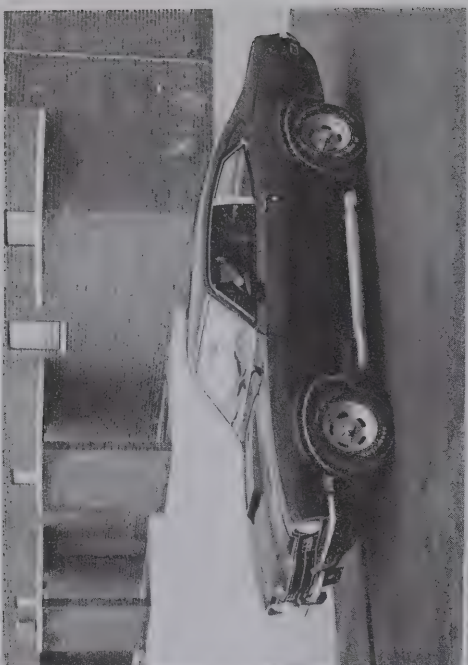

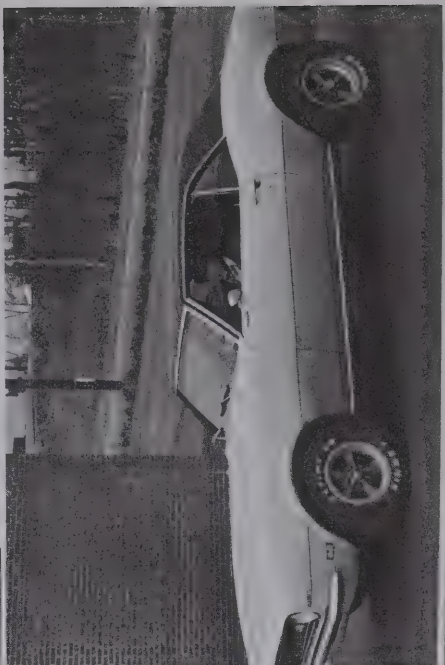

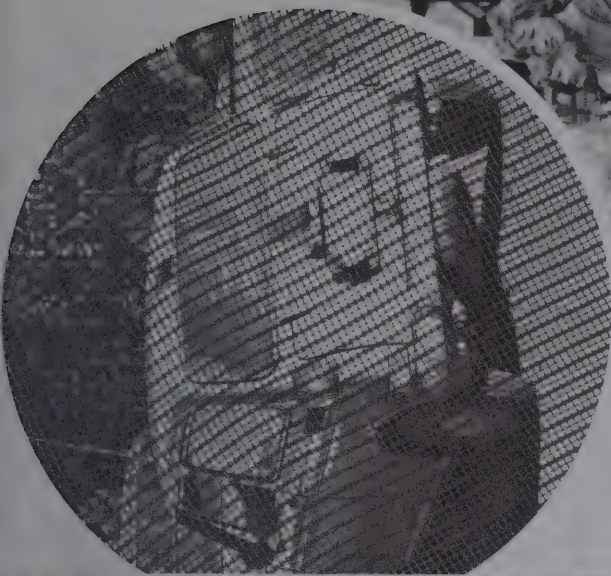

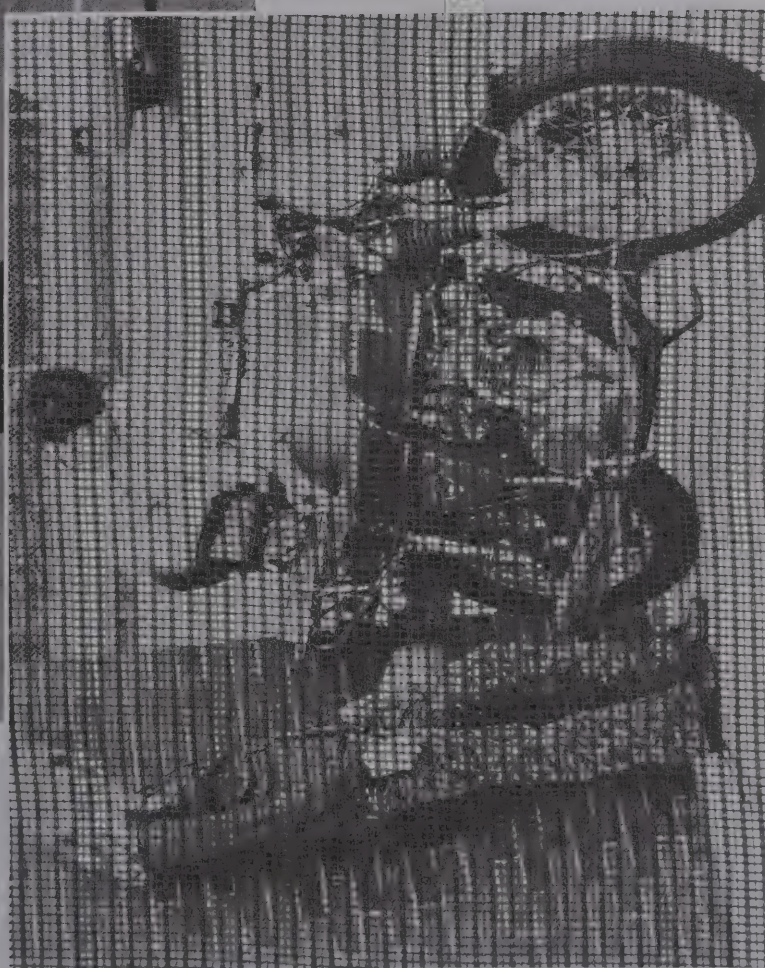

Rushing!  
 Rushing to school!  
 Rushing to class!  
 Rushing to  
 finish a chapter!

Rushing is so important  
 that students become  
 silly toys wound up  
 without feeling.

Where is school spirit? Is it in the football team, basketball team or the other sports played in the school?

Where is the feeling that begins like a small trickle from a stream and rushes through the students like a wall of water bursting from a broken dam. Where is our school spirit? Where is mine?

# Dedication

Only a few people reach a pinnacle in their life successfully. To reach this pinnacle means retirement from a profession that one loves deeply. One man has done so through the sheer love for his subject and his students. Few will ever reach the goals he has attained and fewer still will ever know the pure joy that comes through teaching. In honor of Mr. Ralph Schuessler, the 1973 graduating class of Kings Mountain High School dedicates this annual for a job well done.

Together we go  
into futures we know not,  
into sharing we have not,  
into loving, caring,  
hoping, doing;  
going together  
we find tomorrow,  
going forward without looking  
back.

You will know tomorrow  
if only you reach for it.  
Challenge the spirit of time.  
and you will know its pleasures.  
Look forward that tomorrow's dreams  
may offer more than yesterday's have given.

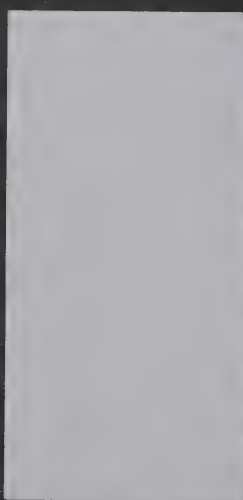

Up  
you  
mountaineer . . .  
up your mountain climb,  
for you shall see tomorrow  
and cheer of what you find.  
Tomorrow's game is waiting.  
Look.

# Election Year

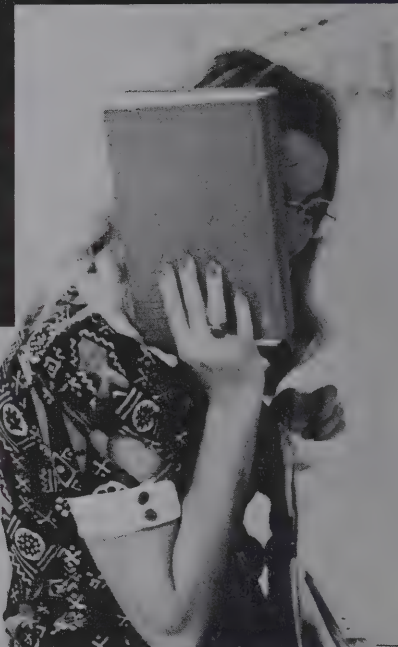

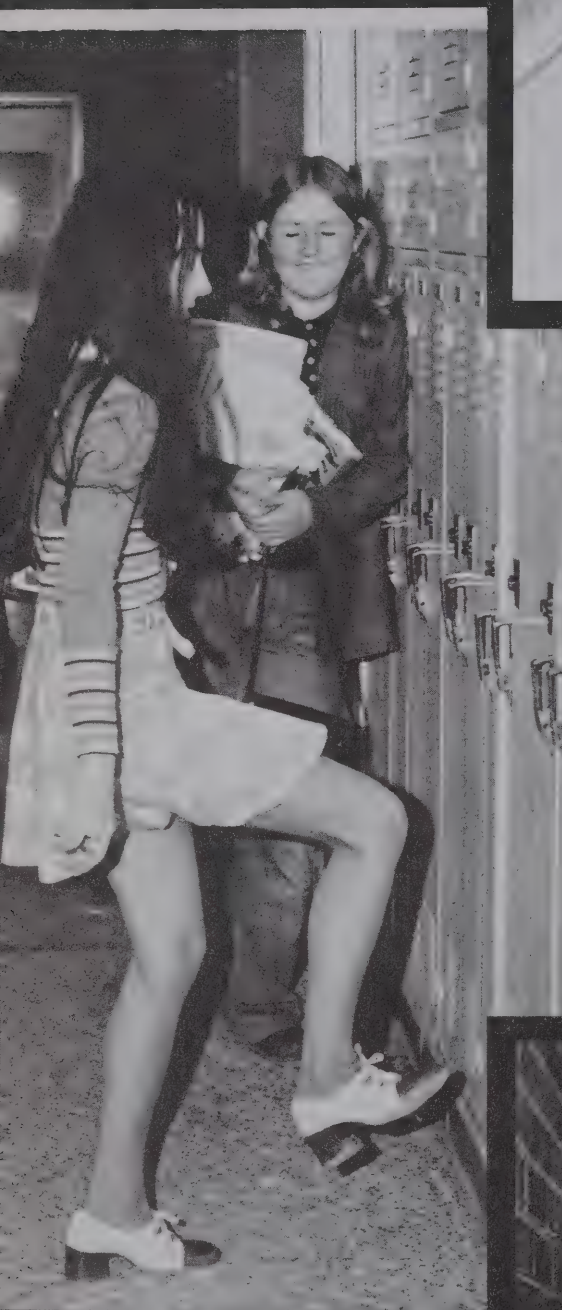

**THE  
CLEAREST  
CHOICE  
OF  
THE CENTURY.**

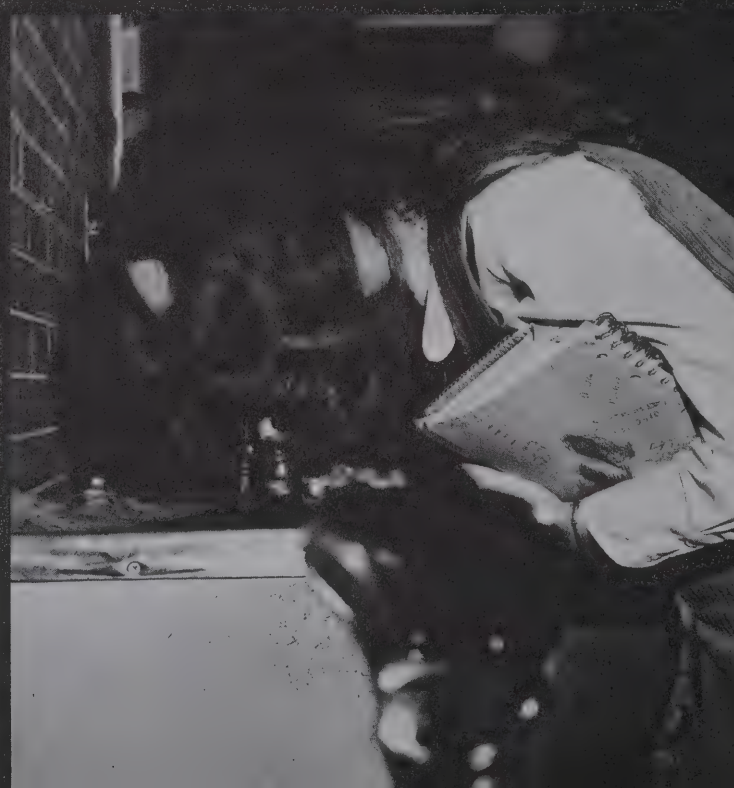

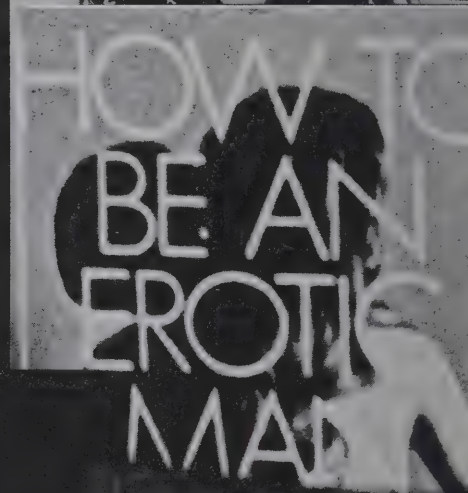

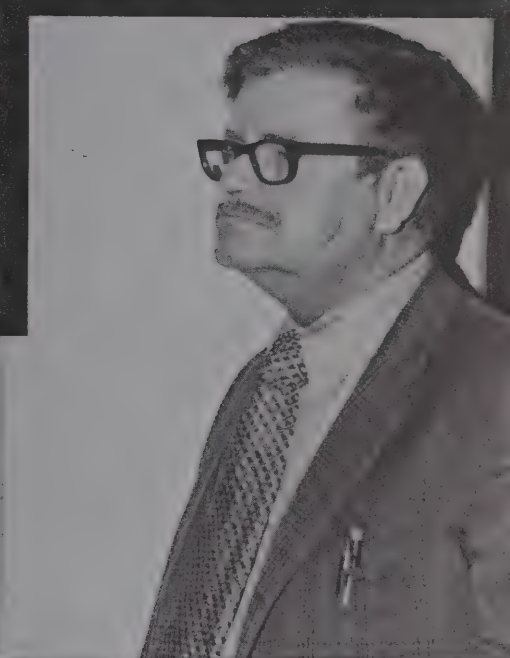

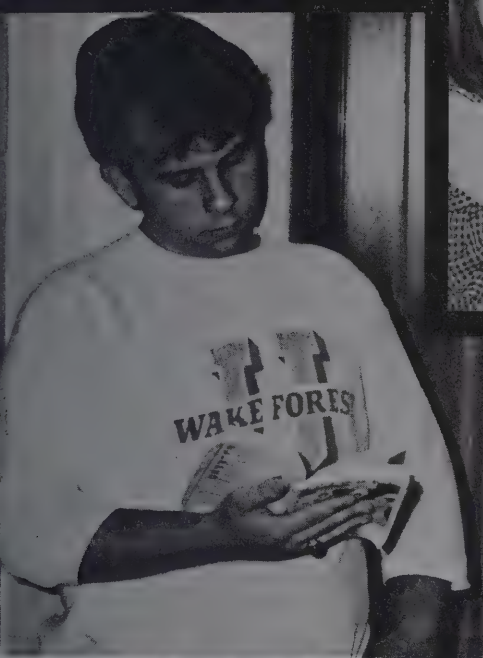

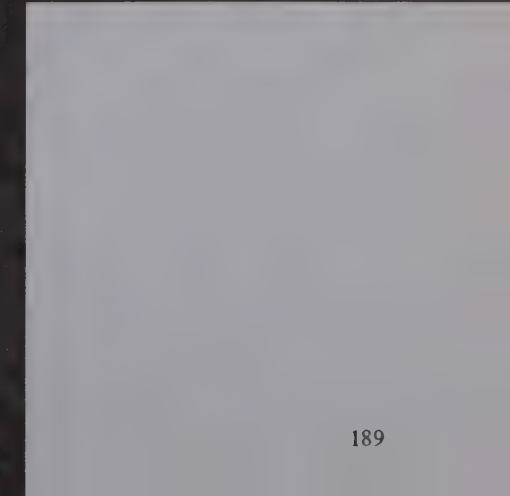

Marching into time  
 we have numbered steps.  
 Our march will be the ruler  
 that governs the pace.  
 Stop.  
 Stop your beat to hear the sound.  
 It tells of things to come.  
 Go.  
 Go on, now that you have seen.  
 Find what it is you search,  
 Capture it for you can't look back  
 once you have passed one time.

“Joe!  
Where’s Joe?  
We need a Joe!  
Where can we get a Joe?  
We’ve got to have Joe!  
Rehersal Time is 7:00!  
Mr. Osborn’s Flipped!  
Senior Class Play?”

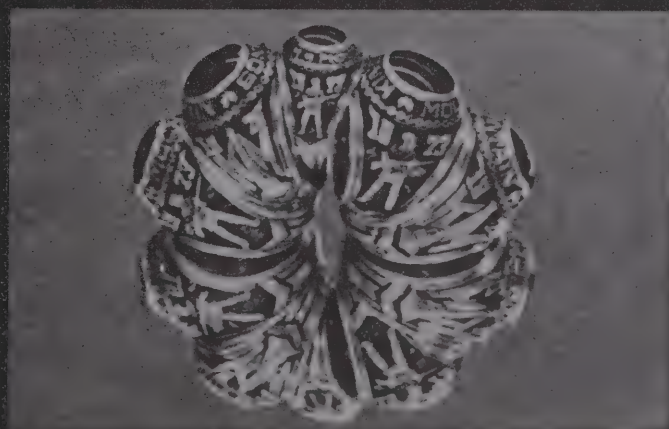

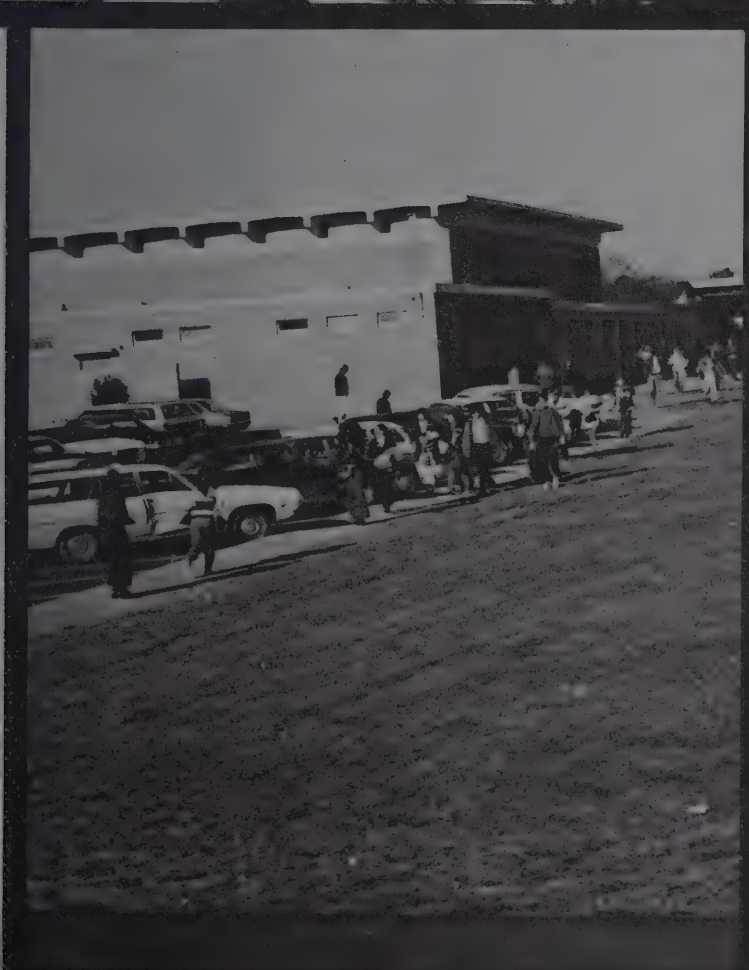

Do all the good you can  
By all the means you can  
In all the ways you can  
In all the places you can  
At all the times you can  
To all the people you can  
As long as ever you can

John Wesley

With a last look back, it is hard to imagine four years have almost passed. In the sadness of leaving this year behind, it is my hope that the going will be a little brighter because of a few happy memories encased between these covers.

This is your '73 **Milestones** to cherish and keep as a reminder of one of your four years in high school. We have tried to say many things, hoping to give each student a little something to remember from this year. There will always be room for improvement because you nor I should never be totally satisfied.

I am very proud to present this annual to the student and I only ask that you accept this book as a total attempt to serve all the students.

Pages and pages of thank-yous could be said to those who worked so hard to put this book together, but most especially, I would like to thank Mrs. McWhirter and Mr. Alexander for all their extra hours of work. Thanks to the staff, the greatest bunch of kids I know. And thank you the students, because you are the reason for the yearbook. We dedicated ourselves to do the best. Thirty years from now when you or one of your children come across this dusty volume, we believe our ambitions will have been realized.

Thanks Bob
